Applicants gratefully acknowledge the allowance of claims 1, 3-6, 8-16, 18-19, and 21-28 in the above-referenced application. While Applicants believe that the claims are allowable, Applicants do not acquiesce that patentability resides solely in each identified feature or combination of features, exactly as expressed by the Examiner, or that each feature or combination of features identified is required for patentability, or that equivalents of any of the recited features are outside the scope of the claims. Moreover, to the extent the Reasons for Allowance do not separately address the subject matter of each claim, Applicants do not acquiesce to any inference that any one claim does not present patentable subject matter independent of any other claim.

Respectfully submitted,
